

ODFL's 2016-2017 Projects

These are ODFL's projects for the school year 2016-2017. They extend from Africa to Central America to Asia. A one dollar donation allows for an education, a safe birth, clean water, or another project to be completed. All projects are built by ODFL's established NGO partners. Please join us!

Birthing Centers in Nepal — In Nepal, 12 women and 75 babies die every day in childbirth. Our Birthing Centers, built with One Heart World-Wide, are reducing these deaths by 95%! We will build three more, in Mulpani, Basteem, and Kot villages in the Bohjpur district. Cost: \$14,400.

Classroom in Nicaragua — Working with our long-time partner, Seeds of Learning (SOL), ODFL will construct three classrooms at the Villa Japon school in Tipitapa, Managua. The school has 650 students but only 8 classrooms. Cost: \$11,000 per classroom.

Disabled Children's Care Facility in South Africa — Not a single facility exists for disabled children in the township of Tembisa with a population of more than 700,000. This project will build a daycare facility for wheelchair-bound children. Cost: \$6,600.

Latrines in Indonesia — In Ban in East Bali, Indonesia the 17,000 residents suffer diarrhea, diphtheria, and E.coli. Many children under the age of 5 have died. With East Bali Poverty Project ODFL will build 47 latrines to clean up the water supply. The cost is 250 per latrine or \$12,000 total.

Medical Clinic in Myanmar — More than 200 orphans at the Kyause Temple in Mandalay are without health care. With MCTA Academy, ODFL will build a simple medical clinic on the temple grounds to serve the health care needs of these orphans. Cost: \$6,000.

Pre-school upgrade and jungle gyms in South Africa — ODFL works with CUDDLE TRUST to renovate pre-schools including new paint, shelving, windows, flooring, and jungle gyms. Many preschools are currently just a dirt-floored shed. Cost: \$800 per upgrade and \$800 per jungle gym.

It's magical when students see how much they can do—with a dollar! If every high school student in America gives just one dollar we can build more than 1,000 schools every year!

It is truly a "change the world" idea. Visit us at odfl.org. **And join us!**
