ODFL Project Summary
Barahachhetra School Classroom
Badachaur, Rolpa, Nepal

Project Name:
Classroom for Barahachhetra School

Project Location:
Badachaur, Nepal

NGO Partner:
Nepal Women Community Service Center (NWCSC)

Project Cost:
$6,035

Needs Assessment:
• The school was built in 1960 and many of the structures have deteriorated
• This one classroom in particular was further damaged by the 2015 earthquake
• The staff and children do not feel safe as the walls and ceiling are cracked and crumbling, at risk of collapse

ODFL, in partnership with the Nepal Women Community Service Center (NWCSC), will fund the construction of a new classroom for the Barahachhetra Secondary School.

ODFL previously worked with NWCSC to open a sewing center for ODFL’s Girls’ Equality Project (GEP). NWCSC has a good relationship with this school and has provided GEP kits to the girls.

The school and community have committed to covering $2800 of the total project cost by volunteering labor and raising funds to help keep the overall project cost low.

The school has 593 students in kindergarten to 10th grade. The school offers scholarships to children who cannot afford to go to school and is committed to providing high quality education. They are endorsed by the Ministry of Education and accredited by the National Examinations Board.
